

Flight Reservation System using Zoho One

Aim

To create a simple **Flight Reservation System using Zoho One** as a cloud-based SaaS application.

Steps / Procedure

1. Log in to the Zoho One cloud platform.
2. Open Zoho Creator from Zoho One.
3. Create a new application for flight reservation.
4. Create a form named **Flight Reservation**.
5. Add the required fields:
 - Trip Type
 - From
 - To
 - Departure
 - Travelers
 - Class
 - Fare Type
 - Flight Type
6. Select the suitable field type for each field.
7. Arrange the fields properly in the form.
8. Save and publish the form.
9. Enter sample flight reservation details.
10. Submit the form.
11. Check whether the reservation details are stored in the cloud.
12. Test the form with different reservation details.

Implementation

Input:

The screenshot shows a web application interface for flight reservations. On the left is a dark sidebar with a logo 'FR' and the text 'flight reservation'. Below it are two menu items: 'Flight Reservations' with a dropdown arrow, and 'All Flight Reservations'. The main content area is titled 'flight reservation' and contains a form with the following fields: 'trip type' with radio buttons for 'one way' and 'round trip'; 'from' and 'to' as dropdown menus, both currently showing '-Select-'; 'departure' as a text input with a date mask 'dd-MMM-yyyy'; 'travelers' as a text input with a mask '#####'; 'class' as a dropdown menu showing '-Select-'; 'fare type' as a dropdown menu showing '-Select-'; and 'flight type' with radio buttons for 'domestic' and 'international'. A blue 'Submit' button is at the bottom of the form. At the very bottom of the sidebar, a user profile for 'Niharika Rajk...' is visible.

Output:

The screenshot displays the 'All Flight Reservations' table in Zoho One. The table has five columns: 'trip type', 'from', 'to', 'departure', and 'travelers'. It contains five rows of data. The third row is selected, and a detailed view of this entry is shown on the right. This view includes a 'More' menu with options 'Edit', 'Duplicate', and 'More'. Below the table, there is a link to 'Add a comment'.

trip type	from	to	departure	travelers
one way	hyderabad	delhi	06-Oct-2	
round trip	hyderabad	mumbai	05-Oct-2	
round trip	hyderabad	mumbai	06-Oct-2	
round trip	chennai	delhi	07-Oct-2	
one way	bangalore	chennai	03-Oct-2	

trip type	round trip
from	hyderabad
to	mumbai
departure	06-Oct-2026
travelers	785479
class	first class
fare type	citizen
flight type	international

Result

Thus, the **Flight Reservation System** was successfully created using **Zoho One** and works as a **SaaS application**.
