Hospital Information System

Aim

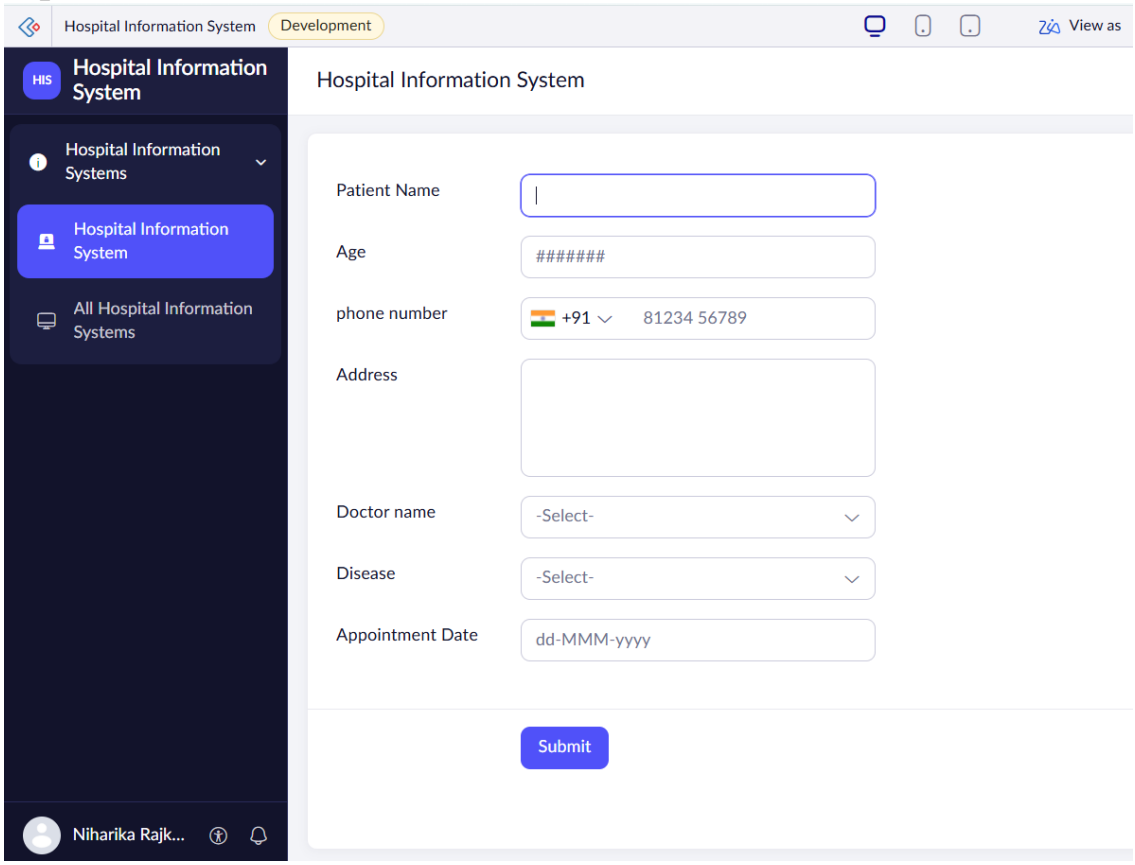

To create a simple **Hospital Information System** for SIMATS Hospital using Zoho One as a cloud-based SaaS application.

Steps / Procedure

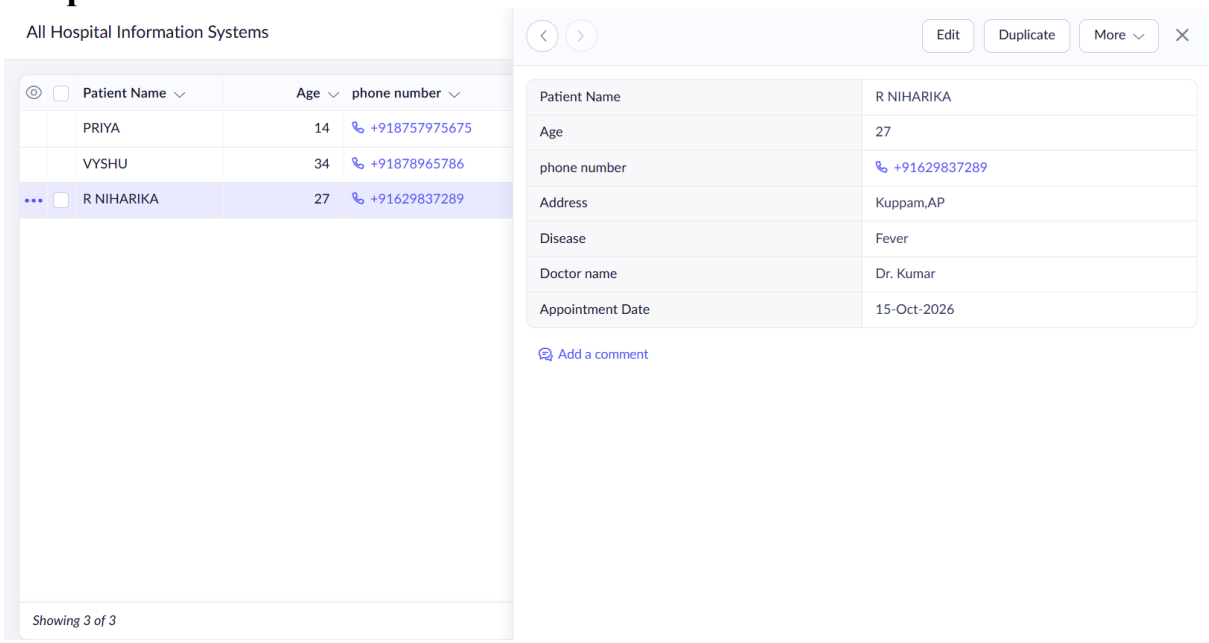

1. Log in to the Zoho One cloud platform.
2. Open **Zoho Creator** from Zoho One.
3. Create a new application for Hospital Information System.
4. Create a form named **Hospital Information System**.
5. Add the required fields.
6. Select the suitable field type for each field.
7. Arrange the fields properly in the form.
8. Save and publish the form.
9. Enter sample patient details.
10. Submit the form.
11. Check whether the patient details are stored in the cloud.
12. Test the form with different patient details.

Implementation

Input:

Output:

Result

Thus, the Hospital Information System was successfully created using Zoho One and works as a cloud-based SaaS application.
