

Mark Sheet Processing System using Zoho

Aim

To create a simple **Mark Sheet Processing System using Zoho One** as a cloud-based SaaS application.

Steps / Procedure

1. Log in to the Zoho One cloud platform.
2. Open Zoho Creator from Zoho One.
3. Create a new application for mark sheet processing.
4. Create a form named Mark Sheet Processing.
5. Add the required fields:
 - Name of the Student
 - Reg No. of the Student
 - Subjects
 - Marks
 - Average
 - Percentage
 - Rank
 - Overall Performance
6. Select the suitable field type for each field.
7. Arrange the fields properly in the form.
8. Save and publish the form.
9. Enter sample student marks details.
10. Submit the form.
11. Check whether the marks details are stored in the cloud.
12. Test the form with different student details.

Implementation

Input:

The screenshot shows the 'Mark Sheet Processing System' interface. On the left is a dark sidebar with the 'MSP' logo and three menu items: 'Mark Sheet Processing System' (selected), 'Mark Sheet Processing System', and 'Mark Sheet Processing System Report'. The main area is titled 'Mark Sheet Processing System' and contains a form with the following fields: 'student name' (text input), 'Reg No.' (text input), 'subjects' (dropdown menu with '-Select-' selected), 'marks' (text input with '#####'), 'average' (text input with '#####'), 'percentage' (text input with '#####'), 'rank' (text input with '#####'), and 'overall performance' (dropdown menu with '-Select-' selected). A blue 'Submit' button is at the bottom. The footer shows a user profile for 'Niharika Rajk...' with a help icon and a notification bell.

Output:

The screenshot displays the 'Mark Sheet Processing System Report' interface. It features a table with columns for 'student name', 'Reg No.', and 'subjects'. The table contains three rows of data. A modal window is open on the right, showing a detailed view of the selected student's data, including 'student name', 'Reg No.', 'subjects', 'rank', 'percentage', 'average', 'marks', and 'overall performance'. The modal also includes 'Edit', 'Duplicate', and 'More' buttons, and a link to 'Add a comment'.

student name	Reg No.	subjects
teja	192525309	english
vyshnavi	192525352	DBMS
niharika	192511221	maths

student name	vyshnavi
Reg No.	192525352
subjects	DBMS
rank	2
percentage	90
average	90
marks	90
overall performance	good

Result

Thus, the Mark Sheet Processing System was successfully created using Zoho One and works as a SaaS application.
