Experiment 17 –Lunix Commands

Aim

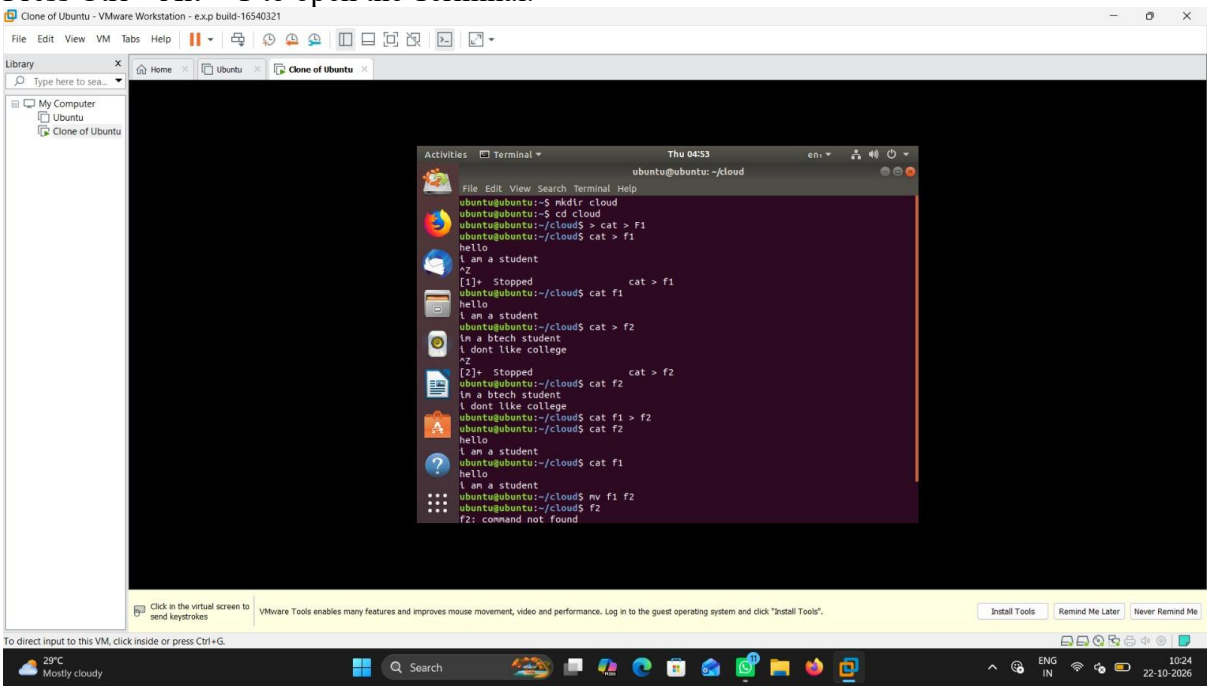

To change the hardware compatibility of an existing virtual machine using VMware Workstation and execute simple Unix commands.

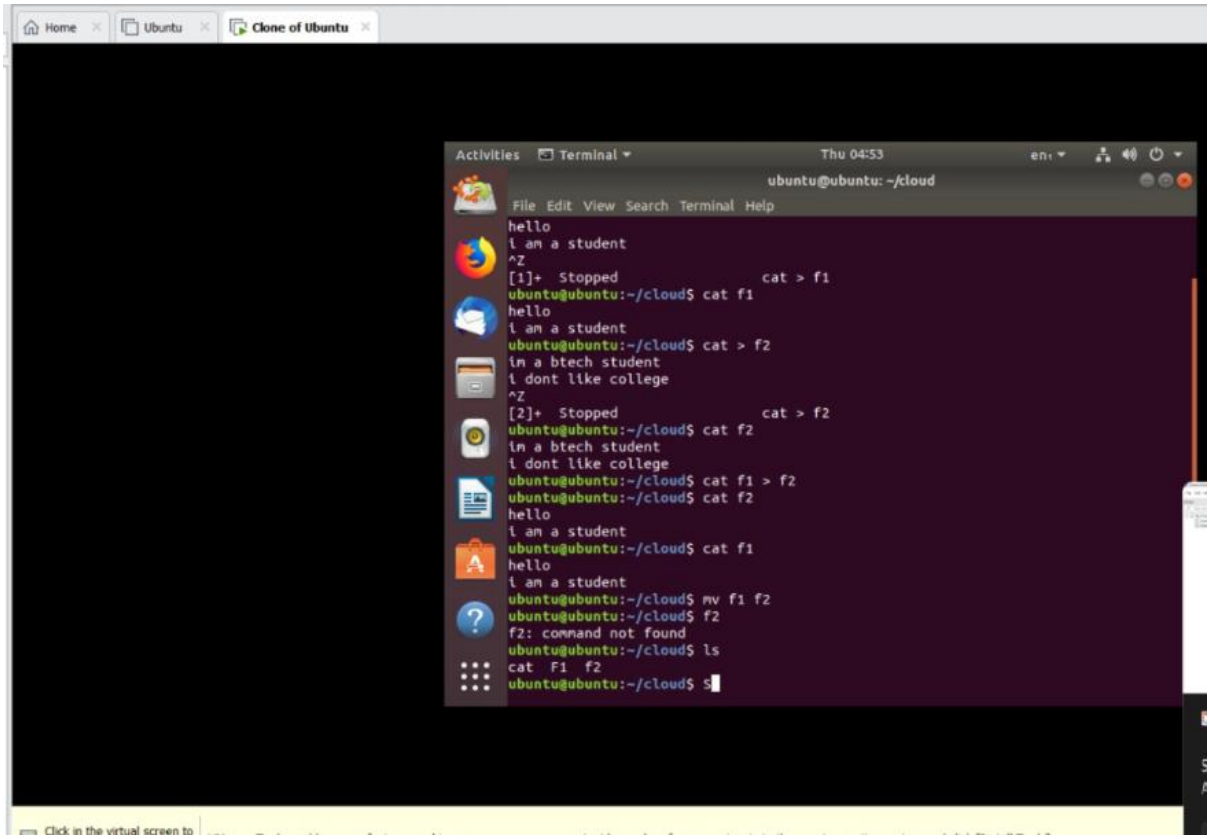

Procedure

1. Select the VM and click Power on this virtual machine.
2. Log in to Ubuntu.

3. Press Ctrl + Alt + T to open the Terminal.

4. Execute the following commands one by one.

Result

The hardware compatibility of the existing virtual machine was changed successfully, and simple Unix commands were executed in the Ubuntu Terminal.
