Online Supermarket – SaaS

Aim

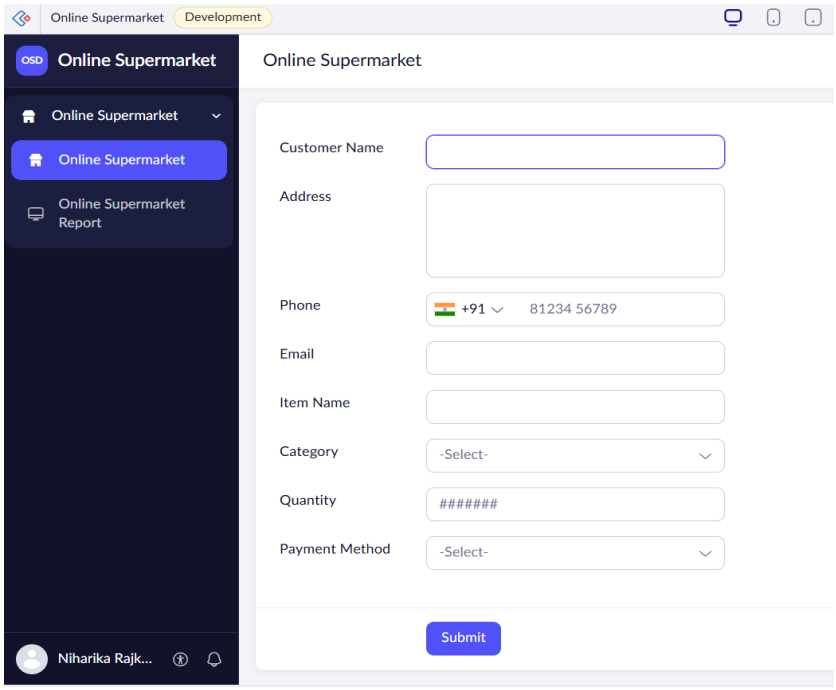

To create a simple **Online Supermarket** using Zoho One as a cloud-based SaaS application to store customer details, manage orders, and classify items.

Steps / Procedure

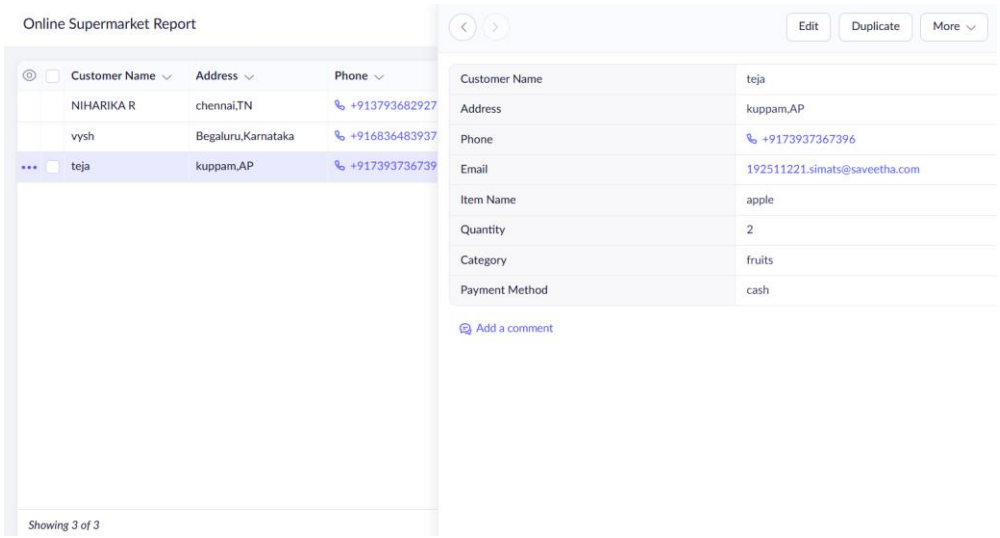

1. Log in to the Zoho One cloud platform.
2. Open Zoho Creator.
3. Create a new application named **Online Supermarket**.
4. Create a form named **Customer Order**.
5. Add customer details, item names, and quantities.
6. Select suitable field types and options.
7. Create an **Item Classification** form.
8. Add item categories and prices.
9. Save and publish the forms.
10. Enter sample customer and order details.
11. Submit the forms.
12. Check whether the records are stored in the cloud.

Implementation

Input

Output

Result

Thus, the Online Supermarket application was successfully created using Zoho One and works as a cloud-based SaaS application to manage customer orders and classify supermarket items.
